OWASP NZ Logo Design Process

A report by Judy Ting-Edwards

What Makes OWASP NZ Different?

- We have a unique position in the world…
  - We’re NOT Australia
  - We’re NOT Hawaii either!
  - We have one national event (and 2 degrees of separation so be KIND to each other!)
  - We wanted to do better in acknowledging Māori perspectives and culture

Welcome Hugo Costa: OWASPs New Graphic Designer!

I would just like to formally introduce Hugo Costa to the OWASP Community as he has recently joined the OWASP Ops Team as our new part-time Graphic Designer. Hugo is located in Lisbon, Portugal, and he will be helping the staff, and our community members, with our graphic design activities related to conferences, chapters, projects, and more.

Please join me in welcoming Hugo to the community! I encourage all of you to reach out to us with any design needs you may have so we can start managing the workload. I am confident we will be able to get a good workflow going so we can alleviate some of the community's design needs.
